VLC

Whether you are working with images, animation, video, sound, 3D modeling and animation, or scanning and printing, we have the facilities and support to help you get it done. We have high quality scanners and color photo printers that can print up to 42" wide.

While priority is given to art classwork, the Digital Media Lab is open to the entire academic community. Lab monitors are always on hand during lab hours to assist students and faculty.

Workshops will be held throughout the semester to assist students and faculty in learning the software available in the Digital Media Lab. Eli Jacobowitz and Brenda Grell are available for a consultation on using digital media.

Check <http://pages.slc.edu/~support/category/workshops/> for the schedule of upcoming workshops.

**No food, drinks, and cell phones.
Respect the equipment.**

Questions?

please stop by 209B or call x2595 to talk to Eli Jacobowitz or Brenda Grell
